

CHANGE EVERYTHING YOU KNOW ABOUT **AUTISM.**

In this paradigm-changing book, prominent Harvard researcher and clinician Dr. Martha Herbert offers a revolutionary and transformative strategy for living with autism.

Autism is not hardwired into a child's genes and destined to remain fixed forever, as parents are often told. Instead, Dr. Herbert approaches autism as a collection of problems that can be tackled—with talents that can be developed. Her specific recommendations aim to provide optimal nutrition, reduce toxic exposures, shore up the immune system, reduce stress, and open the door to learning and creativity—all by understanding and truly meeting your child's needs.

“A new approach to understanding how autism affects many different body systems . . .

Essential reading.”

— Temple Grandin, author of *Thinking in Pictures* and *The Way I See It*

“Dr. Martha Herbert is a **brilliant** researcher, clinician, and thinker.”

— Robert L. Hendren, Director, Child and Adolescent Psychiatry, University of California, San Francisco

“Gives parents two life-changing gifts. First is the gift of realistic hope; the second is the gift of knowledge. . . .

Dr. Herbert helps parents understand their child in a new, holistic way.”

— John L. Martin, director, Ohio Department of Developmental Disabilities
